

# Prescribing Rejoyn

Rejoyn is an app, prescribed like a pill.<sup>1</sup> Prescriptions must be sent directly to CaryRx pharmacy, the online pharmacy that dispenses access codes for Rejoyn.

## STEP 1

### Find CaryRx pharmacy in the electronic medical record (EMR) system

- Confirm CaryRx pharmacy details
  - Name: **CaryRx**
  - Address: **1300 7th St NW, Suite 200, Washington, DC 20001**
  - Phone: **1-202-930-4242**
  - NCPDP number: **0905250**

If you have any issues, refer to the troubleshooting section on page 2.

## STEP 2

### Fill out a prescription

#### COMPLETED REJOYN PRESCRIPTION EXAMPLE

Product name: <b>Rejoyn</b>	Quantity: <b>1</b>
NDC or catalog number: <b>57335000512</b>	Refills: <b>0</b>
Dosage: <b>70 days</b>	Sig: <b>Use as directed.</b>

Be sure your patient's mobile number is populated in the EMR system. It will be used by CaryRx pharmacy to contact the patient and provide them with an access code.

If you plan to call in or fax a prescription, see page 2 for contact information.

See the Clinician Brief Summary at [rejoynhcp.com/CBS](https://rejoynhcp.com/CBS).

## What happens next

### CaryRx pharmacy will collect payment

CaryRx pharmacy will follow up with your patient to collect payment using their credit or debit card. Please note that insurance providers may not cover prescription digital therapeutics. As a medical device, Rejoyn™ is reimbursable by HSA/FSA.

### CaryRx pharmacy will provide an access code

Once payment has been received, the pharmacy will provide your patient with an 8-digit access code for Rejoyn and will also text and email it within a couple of minutes.

### Patients can download Rejoyn

Your patient can download the Rejoyn app, set up their profile, and enter their access code to unlock treatment.

FSA=flexible spending account; HSA=health savings account.

#### Troubleshooting

If you are **unable to locate Rejoyn** in the EMR system:

- Make sure your search settings aren't filtered to only "medications"
- Call your EMR system software vendor to request that Rejoyn become available for ordering. Please note that this may not happen automatically with new nondrug treatments
- Submit a prescription for Rejoyn electronically as a free text (if your EMR system allows this). You can also fax a prescription directly to CaryRx pharmacy at **1-202-930-4243**

If you are **unable to locate CaryRx pharmacy** in the EMR system, you can manually add it:

- Go to the pharmacy selection screen and find the "new" or "add" button
- Input all relevant CaryRx pharmacy details and save

If you are **unable to manually add CaryRx pharmacy** to the EMR system, coordinate with a CaryRx pharmacy specialist at **1-202-930-4242**

A CaryRx pharmacy specialist will:

- Ask which EMR system you use (eg, Athena, SRS, Epic)
- Work with you and the EMR system software vendor to load CaryRx pharmacy into the system
- Follow up with your office to ensure that you can now locate CaryRx pharmacy in the EMR system. Please note that EMR system updates may take 24 hours to process

## CaryRx pharmacy contact information

You may call in or fax the prescription directly to CaryRx pharmacy.

**Phone:** 1-202-930-4242 | **Fax:** 1-202-930-4243
